## **DETAILED ACTION**

### ***Inventorship***

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

### ***Allowable Subject Matter***

2. Claims 1-10 are allowed.
3. The drawings filed September 08, 2006 are acceptable.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or render obvious the claimed combination including intake air amount parameter-detecting means for detecting an intake air amount parameter indicative of an amount of intake air at a location upstream of the branching point of the intake passage; variation parameter-calculating means for calculating a variation parameter indicative of variation in intake air amount between the cylinders, based on a model formed by modeling an intake system of the engine including the intake passage, according to the detected intake air amount parameter, on a cylinder-by-cylinder basis; correction amount-calculating means for

calculating, on a cylinder-by-cylinder basis, a correction amount for correcting the respective amounts of intake air drawn into the cylinders, according to the variation parameter calculated for each cylinder; and control means for controlling each variable intake air amount device according to the correction amount calculated for each cylinder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copies of U.S. Patent are not provided pursuant to MPEP 1302.12.
